FOR

PROPOSAL · JUNE 2026

A CRM **built around** how Volopa **actually** **works.**

A bespoke CRM and AI automation platform — engineered specifically for Volopa, configured by your departments, supported by a named team. Not a product you adapt to. A platform we build around you.

PREPARED BY

Oliver, Bill, Chao, Avi & Soli

PREPARED FOR

Volopa · Senior Team

ARTIFICIALIGNORANCE.IO

THE TEAM

Who you'll actually be working with.

Five people. Specific roles. Direct contact from day one. No agency layers, no account managers translating between you and the people doing the work.

Oliver

CEO / CO-FOUNDER

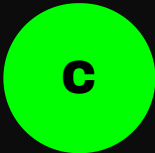

Secured a £6.4M deal with Hiscox through innovation and tech. Delivered 20% revenue growth during COVID. Mentored 70+ sales professionals into top performers over 15 years. British Mensa member. Now driving the UK's leading AI and automation agency — helping businesses generate leads, retain clients and scale without adding headcount.

Bill

CHIEF CUSTOMER SUCCESS / CO-FOUNDER

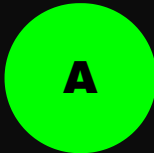

Head of Planning at NatWest and RBS Card Services businesses (5 years). Ran the Expenses and Procurement teams at Unum Ltd (B2B insurance). Brings the regulated financial services lens to every Volopa engagement.

Chao

CTO / CO-FOUNDER

Held Junior positions at two investment banks — Commerzbank and Société Générale. Won the Queen's Enterprise Award for founding a company that grew to over £45M turnover. Spent the last five years building AI infrastructure.

Avi

HEAD OF SYSTEMS & INFRASTRUCTURE

Senior Cyber Security Consultant at Deloitte. Vice President & Tech Lead at Morgan Stanley. 10+ years of infrastructure, systems and cyber security for enterprise clients. Previously Head of Security at one of the world's leading investment banks.

Soli

CRM SUPPORT

Manages a team supporting our clients with CRM functionality, onboarding and any technical issues through to resolution. The day-to-day point of contact who ensures nothing falls through the cracks once you're live.

WHAT WE BUILD · 01

A CRM **built specifically** for Volopa.

Not a generic platform you configure. A platform we build around how your SDRs, BDMs, onboarding, support and marketing teams actually operate — and that flexes as Volopa scales.

01

Bespoke, in code

We're an engineering team. When Volopa needs a workflow, a field, a report or an integration, we build it — not a six-week scoping exercise and a five-figure quote.

02

Configured per department

SDRs, BDMs, onboarding, support and AM each get the pipelines, fields and dashboards relevant to them. Separate workspaces. Shared customer record.

03

AI captures everything

Calls auto-transcribed. Outlook emails synced both ways. WhatsApps logged. Your team stops typing into the CRM — because the CRM is already updating itself.

EMAIL

Outlook two-way sync · zero manual logging

KYC

Moody's via webhook · lands on contact record

TELEPHONY

Native dialer or keep Aircall · calls transcribed

AUTOMATIONS

Retargeting, nurture, handoffs · built & editable

WHATSAPP

Business-grade · automated retargeting flows

MARKETING

Email, SMS, WhatsApp, social — one composer

WHAT WE BUILD · 02

Full-day training. Real partnership.

The platform is half of the deal. The relationship is the other half. Here's what working with Artificial Ignorance actually looks like from day one onwards.

01

Full Day Training

Full-day sessions with each team — SDR, BDM, onboarding, support, marketing. Role-specific training, written runbooks, recorded materials, plus admin training for your designated platform owners.

INCLUDED

02

Support that flexes

UK working-hours support included as standard, with same-day response on issues and next-day on change requests. Optional 24/7 uplift with follow-the-sun coverage available — agreed in the SLA, not promised in marketing.

WORKING HOURS · 24/7 OPTIONAL

INVESTMENT

Simple. Scalable. Built around your teams.

A recurring monthly model that aligns to how Volopa's teams are structured today, with room to expand by department as you grow. Onboarding and migration included.

CORE BUILD · SDR & BDM

Bespoke CRM for Volopa

£1,000

/mo

- ✓ Bespoke CRM built for SDR & BDM workflows
- ✓ Unlimited seats across SDR & BDM teams
- ✓ Outlook sync, telephony, WhatsApp, automations
